Devil Within Dostoevsky?s Theatre of Conscience

ALKONOST, Vienna, 22.11.2026 [ENA]

Some literary works invite theatrical adaptation through the vividness of their action; others through the dangerous intensity of their thought. Dostoevsky's The Brothers Karamazov offers both. In Karamazov and the Devil, the independent theatre project ALKONOST chooses a particularly compelling point of entry: the spiritual and intellectual crisis of Ivan Karamazov.

Adapted for the stage by Alexander Yerofeyev and directed by Elena Yerofeyeva, this concentrated encounter with the novel promises theatre rooted in the unsettling intimacy of a mind questioning its own foundations. The adaptation's central decision is an intelligent one. Rather than attempting to compress Dostoevsky's vast narrative into an illustrated synopsis, it follows a single, fiercely charged trajectory. Ivan's encounters with Alyosha, Smerdyakov and the devil become the framework for an exploration of conscience, freedom and responsibility. Such concentration respects the peculiar theatricality of Dostoevsky's writing: ideas do not remain abstract propositions but acquire voices, temperaments and the capacity to wound.

Philosophical argument becomes human confrontation. Ivan is an especially rewarding figure around whom to organise an evening. His drama does not depend simply on whether an argument can be won. It concerns the relationship between intellectual conviction and the emotional cost of living by it. Within the announced framework, each encounter offers a different pressure upon his worldview. The resulting structure has the potential to reveal thought as an unstable, deeply personal activity: something that can illuminate existence while also making it almost impossible to bear.

The inclusion of "The Grand Inquisitor" gives this intimate drama a wider horizon. Its presence allows Ivan's inward struggle to open towards questions of authority, belief and the burden of freedom. In theatrical terms, this is rich material precisely because it resists a comfortable division between philosophical debate and emotional experience. An audience is invited not merely to follow an argument, but to recognise the human needs and fears beneath its apparent certainty. The announced adaptation places this episode within Ivan's larger crisis rather than treating it as an isolated literary monument.

The title's devil is equally suggestive. As the endpoint of the announced sequence of encounters, this figure turns attention towards the uncertain boundary between an external adversary and an internal voice. For a director, the attraction lies in ambiguity: the disturbing possibility that what confronts Ivan may be less

alien than he would wish. The production's chosen material invites a theatre of uncomfortable recognition, in which the most formidable opponent is not necessarily the loudest or most spectacular presence, but the one who knows exactly where conviction begins to falter.

A particularly attractive element of the project is its musical dimension: Bach, performed by pianist Bogdan Sanisalov. This establishes a second expressive language alongside Dostoevsky's prose. The prospect is not merely one of musical accompaniment, but of a dialogue between verbal restlessness and musical form. Against the turbulence of Ivan's questioning, Bach offers the possibility of another kind of attention: disciplined, searching and receptive to relationships that cannot be reduced to a spoken argument. The choice gives the evening an appealing artistic breadth without abandoning its concentrated focus.

The announced ninety-minute duration further supports this conception. It suggests an encounter shaped by selection rather than accumulation, allowing the production to pursue psychological continuity instead of competing with the novel's narrative scale. For ALKONOST, the strongest opportunity lies in trusting the tension already present between these voices: permitting contradiction to remain alive, rather than resolving it through an imposed explanation. Such material rewards an audience's active listening and leaves space for individual response.

What makes Karamazov and the Devil so promising is its understanding of adaptation as an act of close attention. Its chosen focus brings a monumental novel within intimate theatrical reach, while its musical component opens a space beyond argument alone. The announced conception honours Dostoevsky not by claiming to contain his entire world, but by approaching one of its most troubled inhabitants with seriousness and curiosity. At its heart is a deeply theatrical invitation: to listen as a human being debates not only with others, but with the voices he cannot silence within himself. That invitation carries genuine dramatic force and a welcome confidence in the enduring power of demanding literature onstage.
